ABOUT US

Engineered Stainless. Delivered with Precision.

Nivesha Alloys is an Ahmedabad-based stainless steel processing house and an Authorised Co-Branding Channel Partner of Jindal Stainless Limited — India's largest stainless steel manufacturer. Operating from a 100,000 sq ft integrated facility at Changodar, we serve the domestic and export market with slit coils, sheets, blanks, circles and finished surfaces across the 200, 300 and 400 series.

Our process discipline — calibrated machinery, mill-traceable raw material and rigorous in-line QA — lets us hold tight tolerances on width, thickness and finish, batch after batch.

AT A GLANCE

100,000 sq ft	Integrated facility, Changodar, Ahmedabad
JSL Partner	Authorised Co-Branding Channel Partner
Pan-India + Export	Despatch across India and to Gulf, Africa, SE Asia
200 / 300 / 400	Full grade range from utility to marine-class

PRODUCT RANGE

Sheets · Coils · Circles · Blanks

Product	Specifications	Typical Use
SS Sheets	0.30–6.00 mm thk · up to 1500 mm width · 2B / BA / No.4 / Hairline / Mirror	Kitchenware, lifts, façades, fabrication
SS Coils	0.30–4.00 mm thk · up to 1600 mm width · slit & full-width	Utensil makers, pipe mills, appliance OEMs
SS Circles	Ø 80–1500 mm · DD / EDD grades · BA & 2B finish	Cookware, deep-drawn vessels, religious wares
SS Blanks	Custom-cut to drawing · ± 0.20 mm tolerance · burr-free edges	Press-shop ready blanks for OEM lines

GRADES OFFERED

JSL AUS (J1) · J4 · 204Cu · 301 · 304 / 304L · 316 / 316L · 409L / 409M · 410 · 420 · 430 / 439

Machine List

A 100,000 sq ft factory at Changodar, Ahmedabad — engineered for accuracy and throughput. Material flow optimised from coil receipt to despatch.

#	Machine / Line	Capacity / Specification
1	Slitting Lines	3 lines · up to 1600 mm width · 0.30–4.00 mm
2	Cut-to-Length Machines	3 machines · up to 1500 mm width · precision shear
3	Circle Cutting Machines	Ø 1300 mm × 1 No · Ø 800 mm × 1 No
4	Blanking Line	Precision blanking up to 1500 mm width
5	BA Finish Polishing Line	800 mm width · mirror-class output
6	No.4 & Hairline Polishing Line	1600 mm wet polishing · uniform grain
7	PVC Coating Line	Protective film application up to 1500 mm width
8	Laser Cutting	High precision profile cutting · CNC controlled
9	CNC Bending / Press-Brake	Fabrication & assembly capability

Available Finishing Lines

Finish	Description	Best For
2B Mill Finish	Cold-rolled, annealed, pickled and skin-passed mill standard surface.	General fabrication, base for further finishing
BA (Bright Annealed)	Mirror-grade, glass-like reflectivity polished coil-to-coil.	Premium utensils, lifts, façades, decorative panels
No.4 Satin	Uniform short-grain brushed finish — soft, satin appearance.	Appliances, kitchen surfaces, architectural
Hairline (HL)	Long, parallel grain lines — modern brushed look.	Doors, lifts, signage, interior cladding
Mirror (No.8)	Highly reflective polished mirror finish.	Decorative cladding, religious & temple hardware
PVC Coated	Protective film applied over polished finish for transit safety.	Showroom-grade despatch & export shipments

PROCESSING SERVICES

- **Coil Slitting** — narrow strip & mults from master coils, tight width tolerance.
- **Cut-to-Length** — sheets cut from coils with controlled flatness and squareness.
- **Circle Cutting** — round blanks Ø 80–1500 mm for cookware and deep-draw lines.
- **Blanking** — custom press-shop blanks cut to drawing with ± 0.20 mm tolerance.
- **Surface Finishing** — BA, No.4, Hairline and Mirror polishing lines.
- **PVC Coating** — protective film for transit, export and showroom-grade despatch.
- **Laser Cutting & CNC Bending** — precision profiles and press-brake fabrication.

Who We Serve

Kitchenware & Cookware	Lifts & Elevators
Architectural Cladding & Façades	Hotel & Hospitality Interiors
Appliance & White Goods OEMs	Pharma, Dairy & Food Processing
Auto Components & Exhausts	Pipe & Tube Mills
Solar & Renewables	Religious & Temple Hardware

WHY NIVESHA ALLOYS

- **Mill-traceable material** from Jindal Stainless — every coil with test certificate.
- **Tight tolerances** on width, thickness and finish — held batch after batch.
- **Single-window service** — slitting, cutting, polishing, coating under one roof.
- **On-time despatch** across India and reliable export documentation.
- **Responsive technical support** — quote, sample, drawing-review within 24 hours.
